

TotalVantage®

TotalVantage... Your One Source for Financial Products.

At the core of **TotalVantage** is our Laser Check Program offering three tiers of secure, software compatible laser checks, each with its own distinctive features providing the versatility to meet every budget requirement.

Tier 1

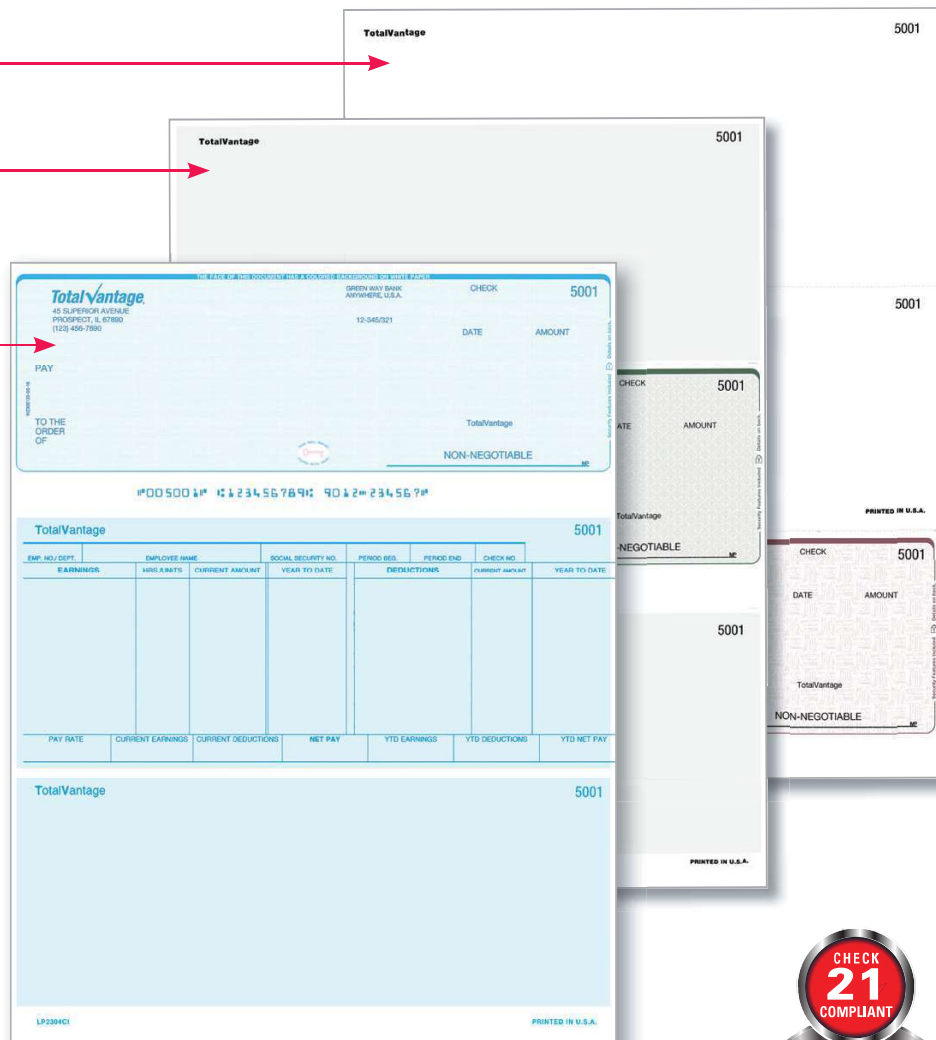

Laser Checks

Tier 2

Laser Checks

Tier 3

Laser Checks

THREE TIER CHECK PROGRAM

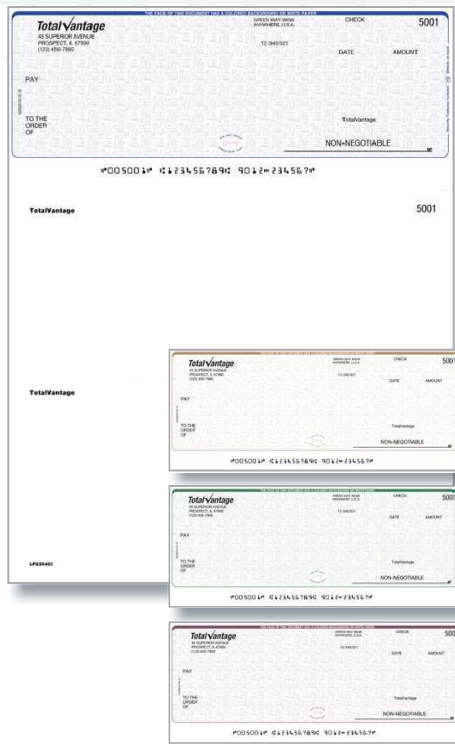

Our Laser Check Program is designed for small businesses to large corporations and offers a variety of security and design levels to meet your needs and your bottom line.

Tier 1: Economically priced program offering 11 security features, over 50+ pantographs and border options and 20 colors to choose from.

Tier 2: Competitively priced program offering up to 15 security features, over 50+ pantographs and border options and 20 colors to choose from.

Tier 3: Flexible, affordable program offering up to 16 security features including True Fourdrinier Watermark. Create your own unique look with over 50+ pantographs and border options and 20 colors to choose from.

TIER 1 LASER CHECKS

TIER 1 LASER CHECKS

We offer a complete line of compatible envelopes to complement our checks and forms (see page 21).

The Most Economically Priced Option!

The *Tier 1* program is an economical option for businesses wanting simplicity, excellent quality and **11 FREE Security Features**. Checks are available with 50+ pantographs and twenty color options.

11 FREE Security Features

Total Vantage™

Make Sure Your Checks Are Secure!

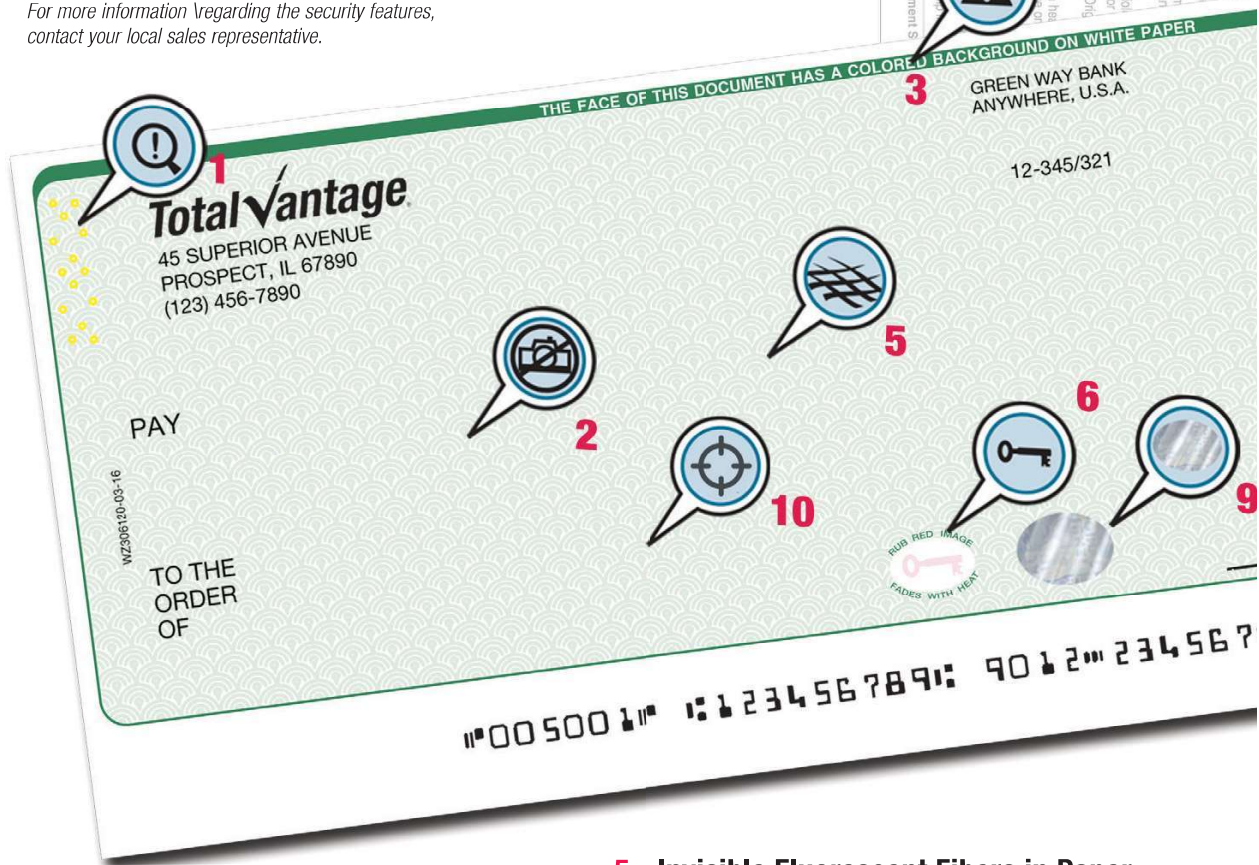

Protect your checks and financial future. Our check security features are unmatched in the industry and help prevent criminals from gaining control of your personal financial holdings – **guaranteed**.

Our high-quality security paper adheres to the latest ANSI standards (Check 21 Compliant) for image readiness.

One of the most popular security features, the hidden message VOID technology, is also the most likely to fail. Manufacturers of the VOID can't keep up with the ever changing copier technology in today's world. That's why we layer on the security in our financial products to eliminate the ease of copying the products and leaving the user at risk for counterfeiting. One of the best security features is the thermochromic ink which you can find on many of our stock products. This fades with heat and is impossible to copy. For more information regarding the security features, contact your local sales representative.

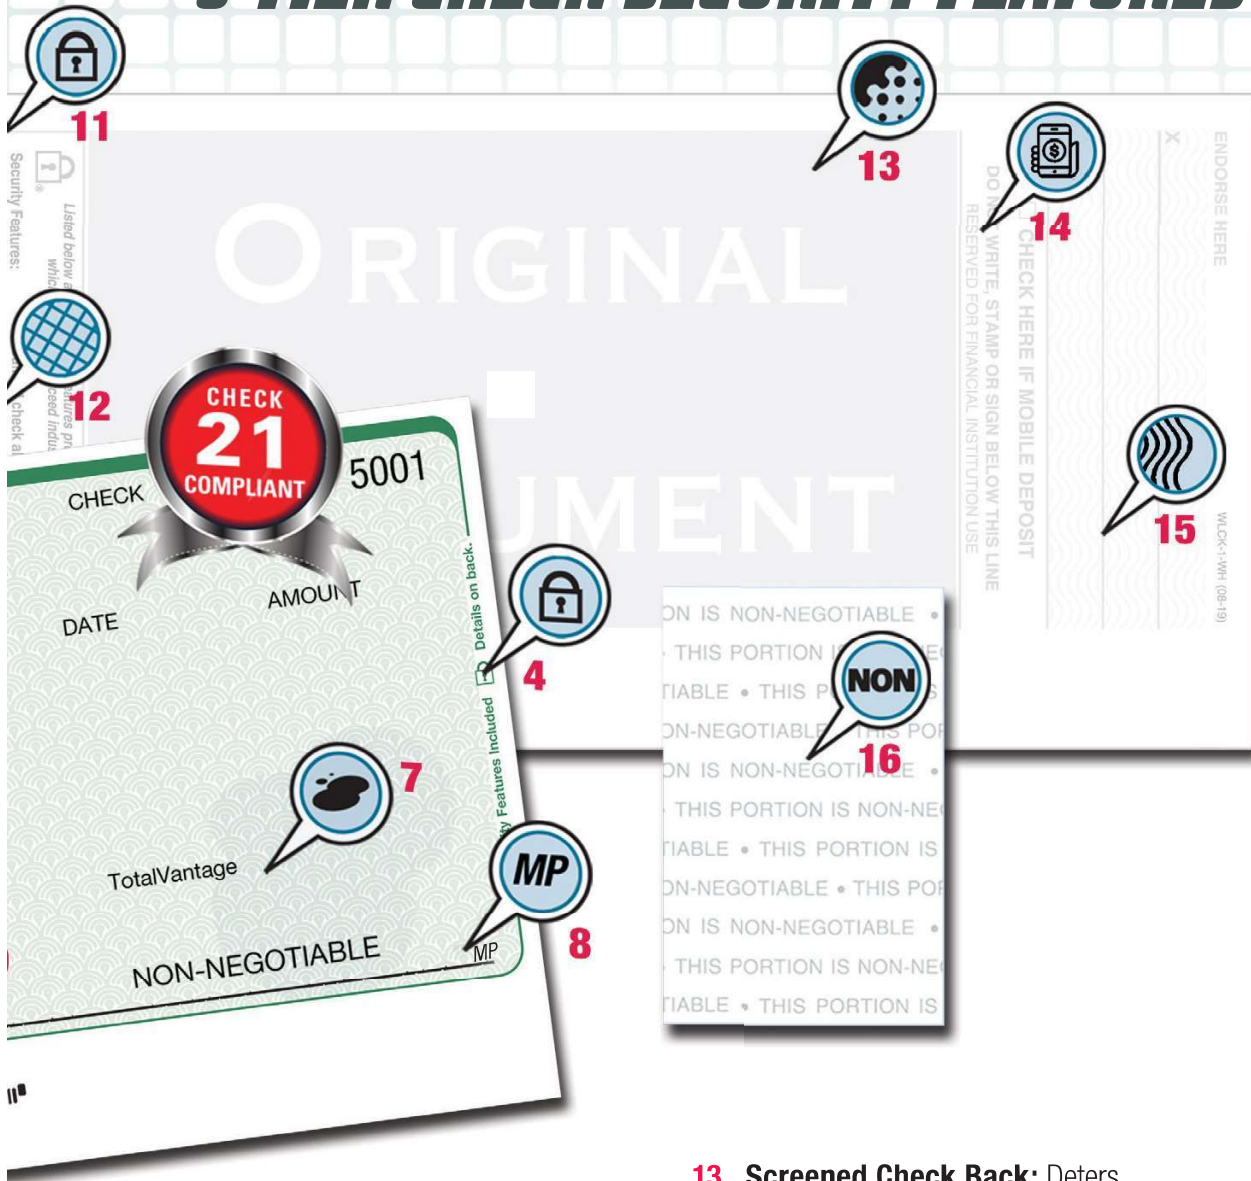

CHECK SECURITY FEATURES

- 1. V-Dot Technology:** triggers the anti copy chip in most color copiers. When the chip is activated, the copy becomes unusable
- 2. Photocopy Void*:** The word "Void" will appear when photocopied.
- 3. Security Warning Band Border:** The most popular security border available.
- 4. Padlock Icon:** Indicates check meets industry standard security guidelines listed on back.

- 5. Invisible Fluorescent Fibers in Paper:** Fibers in paper stock are revealed under a black light.
- 6. Heat Sensitive Thermochromic Icon:** Red key disappears when subject to heat or touch (on back for Standard Plus).
- 7. Chemical Stain:** Sensitized paper reacts to chemical attempts to alter check.
- 8. Microprinting on Signature Line:** Reads "Authorized Signature." When copied or altered, this line is not readable.

3-TIER CHECK SECURITY FEATURES

9. Hologram:** Three dimensional metallic image fused on paper.

10. Pigment Based Ink: Pigment-based ink printed areas will NOT wash away when chemical alteration attempts are made.

11. Padlock Icon on Back:
Lists additional visible and concealed security features.

12. True Fourdrinier Watermark*:**
A diamond shaped watermark can be seen only when held at a 45 degree angle and cannot be altered or reproduced.

13. Screened Check Back: Deters duplication. Screen does not reproduce when copied.

14. Mobile Check Backer

15. Digital Verification Grid:The verification grid appears on the original and disappears when photocopied.

16. Non-Negotiable Phrase: Secures voucher from alteration.

* Photocopy Void, optional on Tier 3 Checks; available with Scallop Void on Tier 2 and Stock Laser Checks.

** Hologram available only on Tier 2 and Stock Laser Checks with Scallop Void .

*** True watermark available only on Tier 3 Laser Checks.

STOCK LASER CHECKS

STOCK LASER CHECKS

after proof approval

For simplicity and excellent quality, plus 11 free security features, make it personal with these Picture Laser Checks.

PICTURE LASER CHECKS

Artwork Requirements

The image should be at least 300 dpi and sized the same as you want it to be on the check. We cannot guarantee print quality on photos below these specs for example: a 1.5 x 1.5" image at 72 DPI expanded to fit an 8.5 x 3.5" check will not be accepted.

Use high resolution Photographs

*We are not responsible for and will not print images that are copyrighted, from the internet, or a third party.
